

Shakir Ullah

Senior Software Engineer

shakir201650@gmail.com · +92 333 6861392 · Lahore, Punjab, Pakistan · LinkedIn: shakir-ullah-201650

PROFESSIONAL SUMMARY

Results-driven Senior Software Engineer with 8+ years of experience architecting, developing, and scaling cloud-native, enterprise-grade web applications. Skilled in React.js, Node.js, and TypeScript, with expertise in building microservices architectures, CI/CD pipelines, and SaaS platforms. Proven track record of improving application performance, enhancing user engagement, and delivering secure, scalable solutions across FinTech, digital banking, and enterprise SaaS systems. Adept at collaborating with global cross-functional teams to drive innovation, efficiency, and long-term maintainability.

PROFESSIONAL EXPERIENCE

Digitify · Lahore, Pakistan (Employer)

All client engagements below were delivered remotely through Digitify.

Senior Software Engineer – React · Digitify

07/2024 – Present

Client: RAKBANK · Dubai, UAE · Remote

- Led development of scalable front-end components using React.js, Next.js, Redux, and Material UI, improving page load time by 20%.
- Implemented reusable design patterns and optimized architecture, reducing maintenance overhead by 30%.
- Collaborated with cross-functional teams to deliver digital banking solutions serving 100K+ users.
- Facilitated peer code reviews across a team of 10+ engineers, ensuring consistent coding standards and fostering a high-quality engineering culture.

Contractor UI Developer · Digitify

11/2020 – 03/2026

Client: Aria Systems · United States · Remote · Concurrent with internal Digitify roles

- Built and optimized scalable, high-performance frontend systems using React.js, TypeScript, Redux, and Material UI.
- Designed and implemented RESTful APIs and backend services in Node.js, ensuring reliable data flow across multiple integrated services.
- Boosted team velocity by 25% by driving structured sprint planning and enforcing engineering standards in an Agile environment.
- Led code reviews and mentored junior developers, elevating code quality and promoting consistent design and testing practices.
- Reduced regression issues and improved deployment confidence through comprehensive Jest unit testing.

Senior Software Engineer – JavaScript · Digitify

03/2022 – Present

Internal · Lahore, Pakistan

- Engineered high-performance, responsive UI features with React.js, TypeScript, Redux, and Material UI, improving load speed by 30%.
- Developed and maintained RESTful APIs and middleware services in Node.js, reducing data transfer latency by 25%.
- Conducted unit testing with Jest, achieving 85%+ test coverage and reducing production regressions by 20%.
- Boosted sprint velocity by 25% through effective Agile practices and code quality initiatives.

- Led structured code reviews and mentoring sessions, resulting in a 30% reduction in rework.

Full Stack Developer – JavaScript · Digitify

11/2020 – 02/2022

Internal · Lahore, Pakistan

- Delivered end-to-end features with React.js (frontend) and Node.js (backend), reducing feature rollout time by 25%.
- Integrated third-party services, authentication mechanisms, and secure APIs, reliably managing 10K+ daily requests without downtime.
- Championed TypeScript adoption and reusable component libraries across 3+ development teams, reducing code duplication by 30%.

Associate Consultant · Speridian Technologies

07/2018 – 09/2020

Lahore, Pakistan

- Developed client-side applications and complex business logic for enterprise-scale software, supporting 10K+ daily users.
- Collaborated across the full SDLC – from requirement analysis to QA and delivery – ensuring 95% on-time project completion.
- Partnered with clients during requirement gathering and solution design, increasing customer satisfaction scores by 15%.

Trainee Consultant · Speridian Technologies

06/2018

Lahore, Pakistan

- Completed intensive training in full-stack JavaScript development (React.js, Node.js, Express.js, MySQL), building 3+ capstone projects.
- Participated in structured mentorship programs focused on enterprise system design and best practices.

EDUCATION

Bachelor of Computer Science · NAMAL University, Mianwali, Punjab

09/2014 – 05/2018

GPA: 4.0 / 4.0

- Awarded Dean's Honor Award for academic excellence.
- Active member of Namal Society for Social Impact, contributing to community initiatives.

TECHNICAL SKILLS

Frontend:	React.js, Next.js, Redux, TanStack (Start, Router, Query), Material UI, Radix UI, Tailwind CSS, HTML5, CSS3, SCSS, Zod, Vite, Atomic Design
Backend:	Node.js, NestJS, Express.js, Prisma, BullMQ, REST APIs, Microservices, Stripe
Languages:	TypeScript, JavaScript (ES6+)
Databases:	PostgreSQL, MySQL, Redis, PgBouncer
Cloud & DevOps:	AWS (S3, SES), Docker, PM2, CI/CD, Git, GitHub Actions
Testing:	Jest, React Testing Library
Methodologies:	Agile, Scrum, RBAC, Maker-Checker Workflows, Configuration-Driven UI
Tools:	Git, Jira, Figma, Postman, OpenAI APIs

PROJECTS

ReachBullet – Multi-Tenant SMS SaaS Platform · Freelance

Built the full stack of a multi-tenant SMS SaaS platform handling 15–20M SMS per day plus voice and API traffic.

- Customer portal: campaign builder with live send progress, contact import, unified inbox, and analytics dashboards.

- Admin portal: tenant oversight, compliance and legal tooling, staff/role management, and permission-gated UI.
- Scaled for high volume with BullMQ/Redis workers for chunked sending and mass scrubs, PgBouncer, and composite indexes.
- Built an append-only billing ledger with Stripe top-ups, auto-recharge, and per-SMS billing from delivery webhooks.
- Added TCPA contact scrubbing, opt-out/suppression, and audit trails; hardened the carrier integration with retries, circuit breaker, idempotency keys, HMAC webhooks, and daily reconciliation.

Frontend: React 19, TypeScript, TanStack Start/Router/Query, Tailwind CSS, Radix UI, Zod, Vite

Backend: NestJS, PostgreSQL, Prisma, Redis, BullMQ, Stripe, JWT/RBAC, AWS (S3, SES), Docker, PM2

CLM – Customer Lifecycle Management (Onboarding Platform) · RAKBANK via Digitify | 09/2024 – Present

- Built key features of a digital onboarding platform for retail and corporate customers using React.js, TypeScript, Material UI, and Atomic Design.
- Implemented maker-checker workflows, role-based access control, and reusable UI components, improving compliance and reducing manual processing time.

Tech Stack: React.js, TypeScript, Material UI

Custom Design System (React + Material UI) · RAKBANK via Digitify | 08/2024 – Present

- Developed a centralized design system aligned with Atomic Design principles, delivering reusable UI components for multiple projects.
- Reduced frontend development time and improved UI consistency across banking applications.

Tech Stack: React.js, TypeScript, Material UI

Web Sales Solution (Multi-Tenant) · Aria Systems via Digitify | 02/2022 – 02/2024

- Architected a multi-tenant sales platform in React.js and Node.js, supporting multiple newspaper brands with dynamic theming and configuration.
- Enabled faster rollout of brand-specific portals, reducing time-to-market and improving maintainability.

Tech Stack: React.js, TypeScript, Node.js, Material UI, AWS (S3, SES), MySQL

CIM & ACM – Aria Media & Publishing Suite · Aria Systems via Digitify | 09/2020 – 02/2022

- Built modules for Customer Interaction Management and Application Configuration.
- Delivered secure role-based access, automation, and real-time customer management, streamlining contact center operations.

Tech Stack: React.js, TypeScript, Node.js, Material UI, AWS (S3, SES), MySQL

GoBig – AI-Powered Blog Platform · Independent | 2023

- Created a full-stack AI-powered blog generator with Next.js, Node.js, OpenAI, DeepSeek, SerpApi, and Leonardo.ai.
- Dynamically generates country-specific blogs with AI content and visuals, improving SEO and user engagement.

Tech Stack: Next.js, Node.js, OpenAI, DeepSeek, SerpApi, Leonardo.ai

ACHIEVEMENTS & CERTIFICATIONS

- Dean's Honor Award – NAMAL University (GPA 4.0/4.0)
- Employee of the Month – Speridian Technologies
- Top Contributor Award – Digitify
- Certificate of English Ability – Emmersion
- Basic Security Awareness (HTML5) – Aria Systems
- OWASP Top 10 Web Application Vulnerabilities Course – Aria Systems
- Privacy and Data Protection (2018) – Aria Systems
